Survey Results

The survey of judges, attorneys and the public were presented to committee. It was noted that it was late to be making changes to the surveys and that sufficient information had been obtained for the committee to make recommendations to the Supreme Court.

Parenting Time Adjustment

The committee discussed changing the amount of adjustment. At one time the committee discussed having a 25% adjustment. Review of discussion. It is difficult to determine the right balance between time and expenses and some committee members find it difficult to justify more than 20%
